Chairman Jack and board members:

After discussing this case at several monthly RNA meetings, requesting input from affected neighbors and meeting with the applicants several times, the Rosedale NA steering committee has determined that we will remain neutral on the case, neither endorsing or opposing the applicant's request for variance. We trust that the Board of Adjustment will weigh the merits of the case and make an appropriate ruling.

Comments: we live very close to the draught house. Their patrons already part up and down our street. We like the pub. They are a valued neighborhood business, and have always been responsive to our concerns. The Realtor office next door and the office building across the street already handle overflow might time parking. I don't see how this expansion will hurt anything.

Comments: I live less than a block from this beer joint. The noise is beyond environmental limits. I was having drunk park in my drive way - but even get in my driveway. The men urinate on my property. Bad language is heard. It is noisy - Please do not let them expand. I am tired of the noise & drunks. There should not be a beer joint in that neighborhood!!

STREET ADDRESS: 4112 Medical Parkway

LEGAL DESCRIPTION: Subdivision – Draught House

Lot(s) 1 Block A Outlot \_\_\_\_\_ Division \_\_\_\_\_

I/ Jim Bennett as authorized agent for The Draught House

\_\_\_\_\_ affirm that on 9/20/12, hereby apply for a hearing before the Board of

Adjustment for consideration to:

ERECT – ATTACH – COMPLETE – REMODEL – MAINTAIN

the second floor of an existing commercial building to expand an existing Pub and Brewery providing 19 paved off street parking spaces.

\_\_\_\_\_ in a \_\_\_\_\_ district.  
(zoning district)

The Austin Electric Utility Department (Austin Energy) enforces electric easements and the setback requirements set forth in the Austin Utility Code, Electric Criteria Manual and National Electric Safety Code. The Board of Adjustment considers variance to the Land Development Code, and a variance granted by the Board of Adjustment does not waive the requirements enforced by Austin Energy. Please contact Christine Esparza with Austin Energy at 322-6112 before filing your application with the Board of Adjustment if your request is for a reduction in setbacks or height limits.

**NOTE:** The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

**REASONABLE USE:**

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

This establishment has existed at this location since 1966, and the expansion will allow for the continuation of this use.

**HARDSHIP:**

2. (a) The hardship for which the variance is requested is unique to the property in that:

Due to the existing developed condition of the site additional parking cannot be provided. The second floor is existing and a reasonable use to this site is to allow the expansion of this use.

- (b) The hardship is not general to the area in which the property is located because:

The lot is an irregular shaped corner lot and is a fully developed site.

**AREA CHARACTER:**

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The use of the site will not change but will continued to serve the neighborhood as it has since 1966.

**PARKING:** (Additional criteria for parking variances only.)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:

The increase in floor area does not mean that the numbers of patrons will necessarily create a higher demand for parking, but will probably be used by the existing patrons to serve their needs.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

This is an existing site and loading and unloading provisions are existing and the expanded floor area will not change existing conditions.

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

Driveways and parking spaces as well as circulation of the spaces are existing and the parking variance will not change these conditions.

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Any change of use requiring additional parking would require a new variance from the Board.

**NOTE:** The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

## PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: [www.ci.austin.tx.us/development](http://www.ci.austin.tx.us/development).

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice.

Comments: *My house in the corner of 42nd and 42nd St. I had my house. My neighbor complained about the noise they hear (music, drunk people etc. My drive way into my house was blocked last week. I had to call a wrecker to move the car. The owner also at the time said I had no consideration for me. Not at night the music keep my husband up. Can say that people will move on the back yard, go out in*
